

The Steakhouse at the Paso Robles Inn Debuts A Whole New Look

Paso Robles' favorite steakhouse refreshes dining experience

6/20/17: Nestled in the heart of downtown Paso Robles, The Steakhouse at the Paso Robles Inn has been providing the finest premium cut steaks and carefully crafted plates to visitors and locals alike, showcasing the freshest ingredients that California's Central Coast has to offer for 72 years. With recently completed renovations, the restaurant's new intimate atmosphere is the perfect complement to Chef Ryan's enticing menu.

Offering both indoor fireside dining and patio dining outside, the Steakhouse invites you to indulge in a genuine taste of Paso Robles while enjoying the new ambience. On top of a locally crafted barn door featuring solid copper letters with a brushed finish serving as the entryway to the restaurant, other renovations include new hard wood flooring, fresh paint, updated windows, a chic seating area in the lobby, and comfortable new seating within the dining area.

"Our new beautiful booths are more private and intimate, allowing guests to visit with their companions without too much background noise. It feels fresh and modern but still maintains its historic feel, I think it is very calming and indicative of the "home" feeling the Inn gives our guests as a whole," says Hallie Broadstone, Restaurant Manager.

At the Steakhouse, the name says it—but the menus prove it. The Steakhouse's true focus is to serve quality steaks. There, all steaks are premium Angus Choice or Prime cuts that have been hand trimmed and aged precisely for juicy tenderness that will leave your mouth watering and your belly full.

"We offer 5 different steak cuts to choose from, which all fall into the top 3-8% of the beef you can buy," says Broadstone, "In addition, we feature our new clean eating dishes like the Red Quinoa, fresh wild line caught fish, and vegetarian options. We have found a great seamless way to infuse the new and the old, with fresh hip choices and traditional service—we are the best of both worlds."

The Steakhouse has weekly specials that will please your palate. On Wednesdays and Sundays, enjoy a 10 oz. Prime Rib with a choice of potato and house salad for \$26.95. Satisfy your craving for Surf & Turf on Thursdays with an 8 oz. Top Sirloin accompanied by succulent Shrimp Scampi for \$28.95. And what's a Sunday without brunch?
